

Checklist			
ID	Title	Status	Description
Module 1: Login & Authorization			
1	Verify login functionality with valid credentials (Positive test).	Pass	As expected
2	Verify login functionality with invalid credentials (Negative test).	Pass	As expected
3	Verify user logout functionality.	Pass	As expected
4	Verify UI and spelling of error messages during the login process.	Fail	Bug_001
Module 2: Products Page (Inventory)			
5	Verify the display of all product elements (image, title, description, price).	Fail	Bug_002, Bug_003
6	Verify the functionality of sorting filters (e.g., Price: low to high).	Pass	As expected
7	Verify adding a single product to the cart.	Pass	As expected
8	Verify removing a product from the cart directly from the Products Page.	Pass	As expected
Module 3: Shopping Cart			
9	Verify consistency of products in the cart with those added from the inventory.	Pass	As expected
10	Verify removing a product directly from the Cart view.	Pass	As expected
11	Verify the functionality of the "Continue Shopping" button.	Pass	As expected
Module 4: Checkout Process			
12	Verify navigation to the "Checkout: Your Information" form.	Pass	As expected
13	Test validation of the checkout form fields (e.g., empty fields, random string inputs).	Fail	Bug_004
14	Verify the accuracy of mathematical calculations on the "Checkout: Overview" page (Item total, Tax, Total).	Pass	As expected
15	Verify successful order completion and the "Checkout: Complete!" screen.	Pass	As expected
Module 5: Navigation & Footer (UI)			
16	Verify the functionality of the side navigation menu (Hamburger menu).	Pass	As expected
17	Verify redirection of social media links in the footer (Twitter, Facebook, LinkedIn).	Pass	As expected
18	Verify system links in the footer (Terms of Service, Privacy Policy).	Fail	Bug_005

Test Cases							
Test Case ID	Module	Title	Preconditions	Steps	Expected results	Actual results	Status
TC_001	Login	Verify successful login with valid credentials	User is on the Swag Labs login page	1. Enter username "standard_user" 2. Enter password "secret_sauce" 3. Click "Login" button	User is successfully logged in and redirected to the Products page.	As expected	Pass
TC_002	Login	Verify login fails with invalid credentials	User is on the Swag Labs login page	1. Enter username "standard_user" 2. Enter password "wrong_password" 3. Click "Login" button	System displays an error message: "Epic sadface: Username and password do not match any user in this service". User is not logged in.	As expected	Pass
TC_003	Login	Verify user logout functionality	User is logged into Swag Lab page	1. Click "Hamburger" icon in top, left corner 2. Click "Logout" on dropdown menu	User is successfully logged out and redirected to the Login page.	As expected	Pass
TC_004	Login	Verify UI and spelling of error messages during the login process	User is on the Swag Labs login page	1. Enter username "standard_user" 2. Enter password "wrong_password" 3. Click "Login" button	System displays an error message: "Epic sadface: Username and password do not match any user in this service". Message is clear and fit into message container. User is not logged in.	Message doesn't fit into error message container (Bug_001)	Fail
TC_005	Product Page	Verify display of product elements on the Inventory page	User is logged on the Swag Labs inventory page	1. Verify the product card elements (image, title, description, price)	Product image, title, description, and price are displayed clearly and correctly, without any visual bugs or raw code	Product description contains raw programming code instead of plain text. (BUG_002, BUG_003)	Fail
TC_006	Product Page	Verify the functionality of sorting filters	User is logged on the Swag Labs inventory page	1. Verify the functionality of sorting filters (Name (A to Z), Name (Z to A), Price (low to high), Price (high to low))	Filtering works correctly, sorting product via name from A to Z, Z to A, price low to high and high to low.	As expected	Pass
TC_007	Product Page	Verify adding a single product to the cart	User is logged on the Swag Labs inventory page	1. Find any product on the inventory page 2. Click "Add to cart" button 3. Verify that the cart icon displays '1' on the badge 4. Click on "Cart" icon in top right corner 5. Check if your product is in the cart	Product has been successfully added to the cart.	As expected	Pass
TC_008	Product Page	Verify removing a product from the cart directly from the Products Page	User is logged on the Swag Labs inventory page	1. Find any product on the inventory page 2. Click "Add to cart" button 3. Verify that the cart icon displays '1' on the badge 4. Click "Remove" button 5. Verify that the cart icon does not display any number	Product has been successfully removed from the cart.	As expected	Pass
TC_009	Shopping cart	Verify consistency of products in the cart with those added from the inventory	User is logged on the Swag Labs inventory page	1. Find any product on the inventory page 2. Click "Add to cart" button 3. Click on "Cart" icon in top right corner 4. Verify item elements (title, description, price) are the same as on the inventory page	Product names, descriptions, and prices in the cart are perfectly consistent with the inventory page (including the known issues from BUG_002 and BUG_003).	As expected	Pass
TC_010	Shopping cart	Verify removing a product directly from the Cart view	User is logged on the Swag Labs inventory page	1. Find any product on the inventory page 2. Click "Add to cart" button 3. Click on "Cart" icon in top right corner 4. Verify if your product is in the cart 5. Click "Remove" button	Product has been successfully removed from the cart.	As expected	Pass
TC_011	Shopping cart	Verify the functionality of the "Continue Shopping" button	User is logged on the Swag Labs inventory page	1. Find any product on the inventory page 2. Click "Add to cart" button 3. Click on "Cart" icon in top right corner 4. Verify if your product is in the cart 5. Click "Continue Shopping" button	User is redirected to inventory page. Cart icon displays '1' on the badge. Selected item has "Remove" button active.	As expected	Pass
TC_012	Checkout process	Verify navigation to the "Checkout: Your Information" form	User is in the Shopping Cart and has at least one item added	1. Click "Checkout" button	User is redirected to the order form page.	As expected	Pass
TC_013	Checkout process	Test validation of the checkout form fields - empty	User is in the order form page.	1. Leave "First Name", "Last Name" and "Zip code" fields empty 2. Click "Continue" button	System prevents the user from proceeding and displays an error message regarding empty fields.	As expected	Pass
TC_014	Checkout process	Test validation of the checkout form fields - four space marks	User is in the order form page.	1. Enter four spaces in "First Name" field 2. Enter four spaces in "Last Name" field 3. Enter four spaces in "Zip Code" field 4. Click "Continue" button	System prevents the user from proceeding and displays an error message regarding incorrect data in fields.	System allows the user to proceed to the payment page (BUG_004).	Fail
TC_015	Checkout process	Verify the accuracy of mathematical calculations on the "Checkout: Overview" page	User is in the Checkout: Overview page with at least one item added	1. Verify that the individual item price is correct. 2. Verify that the "Item total" matches the item price (or sum of items) 3. Verify that "Item total" + "Tax" equals the final "Total price"	The "Item total", "Tax", and final "Total" values are mathematically accurate and displayed correctly	As expected	Pass
TC_016	Checkout process	Verify successful order completion and the "Checkout: Complete" screen	User is in the Checkout: Overview page with at least one item added	1. Click "Finish" button	User is redirected to the "Checkout: Complete!" page and the "Thank you for your order!" message is displayed.	As expected	Pass

TC_017	Navigation & Footer (UI)	Verify the functionality of the side navigation menu (Hamburger menu)	User is logged on the Swag Labs inventory page	1. Click sliding ("hamburger") menu in top left corner 2. Verify every element is highlighted on hover 3. Click "X" icon to close menu	The side navigation menu opens and closes smoothly. All menu items are displayed correctly and are highlighted on hover.	As expected	Pass
TC_018	Navigation & Footer (UI)	Verify redirection of social media links in the footer	User is logged on the Swag Labs inventory page	1. Scroll down to the footer 2. Click on "Twitter" icon 3. Click on "Facebook" icon 4. Click on "LinkedIn" icon	All social media links work properly. Each icon opens the official Sauce Labs profile in a new browser tab.	As expected	Pass
TC_019	Navigation & Footer (UI)	Verify system links in the footer (Terms of Service, Privacy Policy)	User is logged on the Swag Labs inventory page	1. Scroll down to the footer 2. Click text "Terms of Service" and "Privacy Policy"	The texts "Terms of Service" and "Privacy Policy" are active hyperlinks that redirect the user to the respective legal documents.	The legal texts are plain, static text elements and cannot be clicked or interacted with (BUG_005)	Fail

Bug Reports								
Bug ID	Title	Severity	Priority	Environment	Steps to reproduce	Expected results	Actual results	Attachment
BUG_001	Login error message is truncated on the UI	Minor	Medium	Windows 11 Google Chrome Version 149.0.7827.199	1. Navigate to Swag Labs login page. 2. Enter valid username "standard_user" 3. Enter invalid password "wrong_password" 4. Click "Login" button 5. Observe the error message container	The error message container expands to fit the text, displaying the entire message clearly.	The error message container is too small, and the bottom part of the text ("Epic sadface: Username and password do not match any user in this service") is truncated/cut off.	Bug_001.png
BUG_002	Raw programming code in item description	Minor	Medium	Windows 11 Google Chrome Version 149.0.7827.199	1. Navigate to Swag Labs inventory page. 2. Verify description of "Sauce Labs Backpack" on inventory page	Product description is displayed clearly and correctly, without any visual bugs or raw code.	Product description contains raw programming code instead of plain text.	Bug_002.png
BUG_003	Raw programming code in item title	Minor	Medium	Windows 11 Google Chrome Version 149.0.7827.199	1. Navigate to Swag Labs inventory page. 2. Verify title of "Test.allTheThings() T-Shirt (Red)" on inventory page	Product title is displayed clearly and correctly, without any visual bugs or raw code.	Product title contains raw programming code instead of plain text.	Bug_003.png
BUG_004	Checkout form accepts spaces as valid input and allows proceeding	Major	High	Windows 11 Google Chrome Version 149.0.7827.199	1. Navigate to Swag Labs checkout page 2. Enter four spaces in each field ("First Name", "Last Name", "Zip code") 3. Click "Continue" button	System prevents the user from proceeding and displays an error message regarding incorrect data in fields.	System allows the user to proceed to the payment page.	
BUG_005	Footer legal texts (Terms of Service, Privacy Policy) are static text instead of clickable links.	Major	High	Windows 11 Google Chrome Version 149.0.7827.199	1. Scroll down to the footer 2. Click text "Terms of Service" and "Privacy Policy"	The texts function as hyperlinks and open the corresponding legal documents.	The texts are unclickable, plain text elements.	

Test Summary Report				
Project name		Swag Labs (SauceDemo) e-commerce platform		
Prepared by		Wojciech Foriasz, Junior QA Engineer		
Date		29.06.2026		
1. Project Overview				
The goal of this project was to manually test the Swag Labs web application. I tested the main user paths and basic edge cases in 5 modules: Login, Product Page, Shopping Cart, Checkout and Footer/Navigation.				
2. Test Environment				
OS		Windows 11		
Browser		Google Chrome (Version 149.0.7827.199)		
Test Data		standard_user profile		
3. Test Execution Metrics				
I wrote and executed 19 test cases in total.				
Metric		Count		Percentage
Total Test Cases Executed		19		100%
Passed		14		74%
Failed (Bugs)		5		26%
Blocked/Skipped		0		0%
4. Defect Summary				
I found 5 bugs during testing. The most important one is the checkout validation issue (BUG_004)				

Bug ID	Module	Defect Title	Severity	Status
BUG_001	Login	Login error message is truncated on the UI	Minor	Open
BUG_002	Product Page	Raw programming code in item description	Minor	Open
BUG_003	Product Page	Raw programming code in item title	Minor	Open
BUG_004	Checkout	Checkout form accepts spaces as valid input and allows proceeding	Major	Open
BUG_005	Footer	Footer legal texts (Terms of Service, Privacy Policy) are static text instead of clickable links.	Major	Open

5. Conclusion

Status	Not ready for release (No-Go).
The main buying process works, but the application is not ready for production. BUG_004 allows users to make an order with an empty address (spaces only), which is a high business risk. Also, missing links for the Privacy Policy (BUG_005) is a legal issue. I recommend fixing these Major bugs before release.
